1. Introduction

Sparta Royale is a web-based salon management app. It can be installed on your phone or computer as a PWA (Progressive Web App).

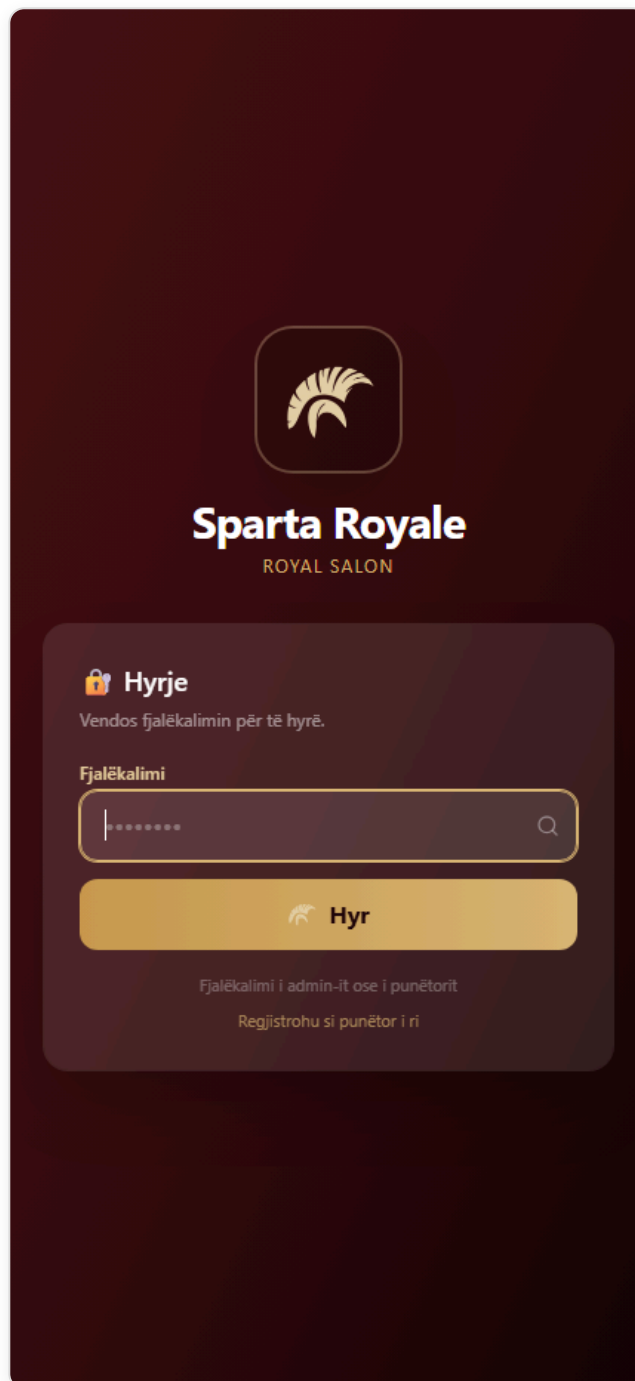

Key features:

-  Appointment management
-  Income and expense tracking
-  Product inventory with low-stock alerts
-  Client and service management
-  Analytics with charts and PDF reports
-  Automatic email reports (EmailJS)
-  Browser notifications for appointments & low stock
-  Worker accounts with owner approval

2. Getting Started & Login

1.1 Opening the App

1. Open your browser and go to **sroyale.vercel.app**
2. You will see the login screen
3. Enter the password "**magi**" and tap **Login**

Login screen — enter your password and tap Login

1.2 PWA — Add to Home Screen

For a native app experience, you can install Sparta Royale on your device:

Device	Steps
iPhone (Safari)	Tap Share  → Add to Home Screen → Add
Android (Chrome)	Tap menu : → Install app → Install
Desktop (Chrome/Edge)	Click the install icon + in the address bar

Once installed, it will appear on your home screen like any other app.

1.3 Bottom Navigation

Tab	Icon	What it does
Dashboard		Profit overview, appointments, low stock alerts
Expenses		View and manage business expenses
Income		View and manage service income
Appointments		Manage client appointments
More	...	Products, Clients, Services, Analytics, Settings

3. Dashboard

The **Dashboard** is your business command center — it shows everything you need at a glance.

Dashboard — shows profit, appointments, and stock alerts

2.1 Profit Overview

- Select the period: **Daily / Weekly / Monthly / Yearly**
- Shows **income**, **expenses**, and **net profit**

2.2 Today's Appointments

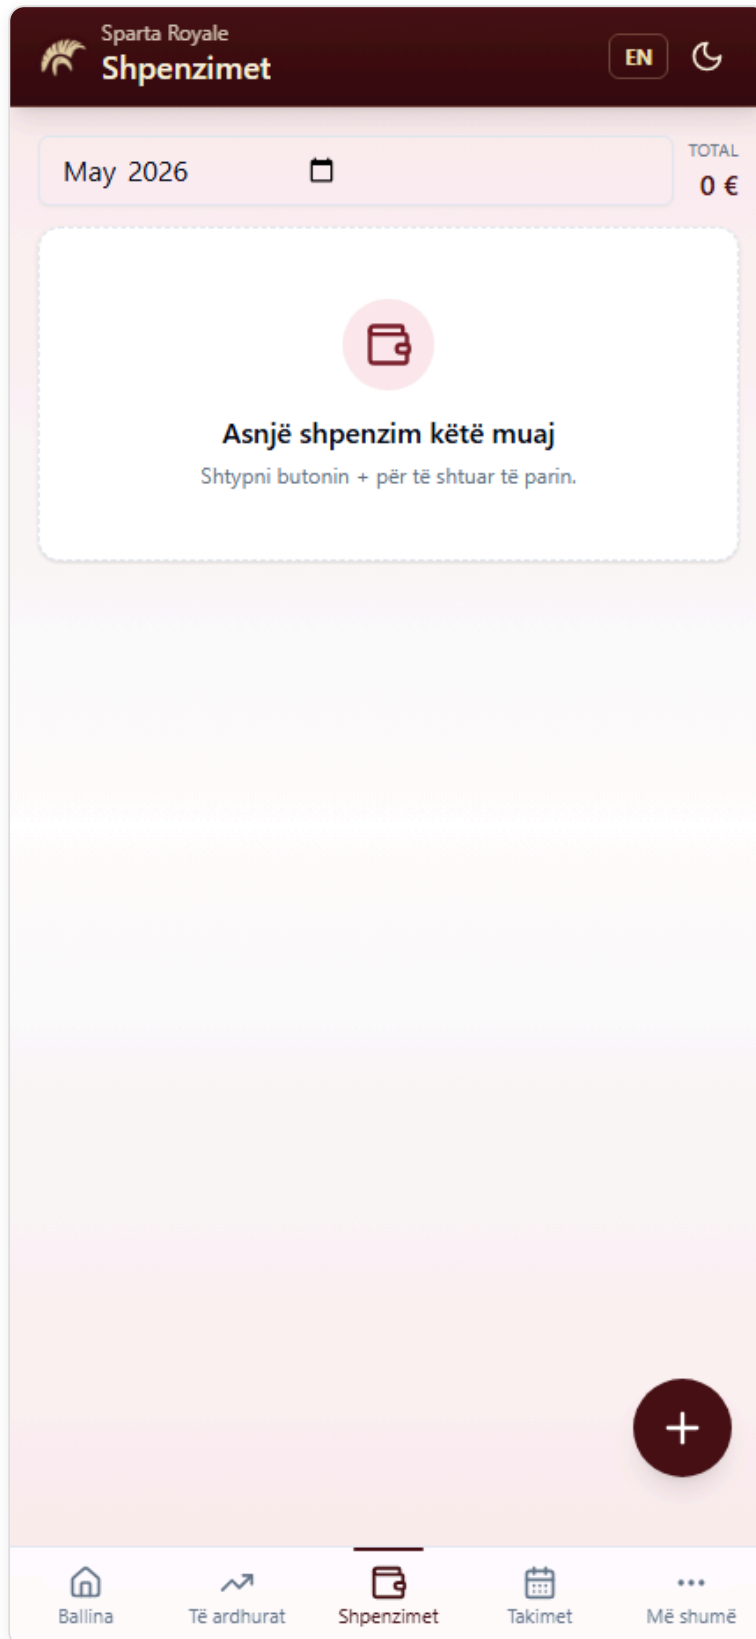

- Lists appointments for the selected month
- Tap "**View All**" to open the Appointments tab
- Tap any row to see details (service, extras, total)

2.3 Low Stock Alert

- Shows products below the low-stock threshold
- Tap "**View All**" to jump to Products

4. Expenses

Manage business expenses — rent, supplies, utilities, and more.

Expenses list — filter by month, swipe to edit or delete

How to add an expense:

1. Tap the + button at the bottom-right
2. Enter **Name** (e.g., "Rent", "Electricity")
3. Enter the **Amount (€)**
4. Pick the **Date**
5. Tap 

 **Smart merge:** Adding the same expense name on the same day automatically merges amounts — ideal for multiple supply purchases.

Edit / Delete:

- **Swipe left** on an expense → tap **Edit** (pencil) or **Delete** (trash)

5. Income

Track income from services performed.

Income tab — filter by month, view totals

How to add income:

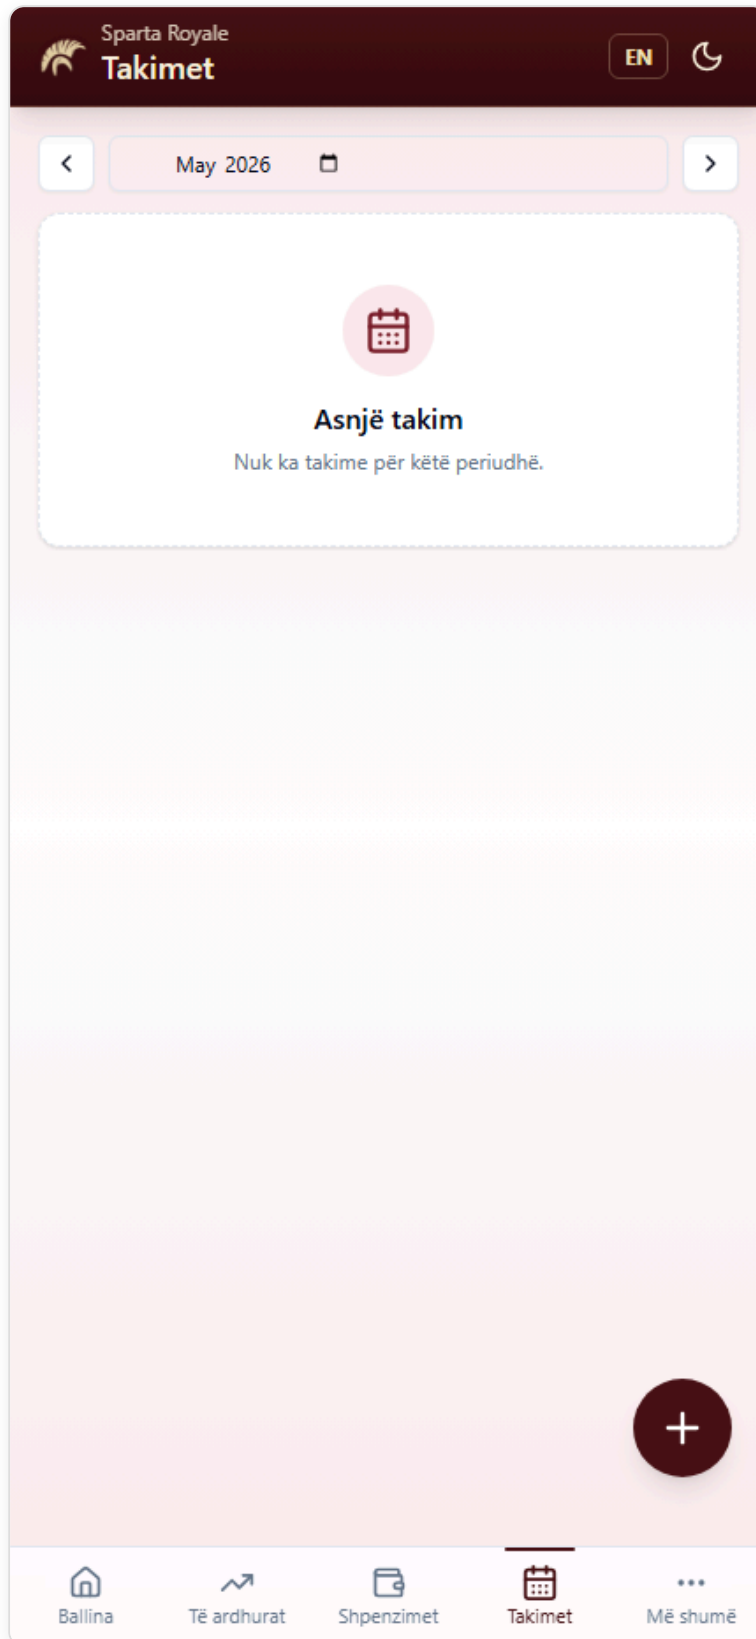

1. Tap the + button
2. Select a **Service** from the list, or type a new one
3. Optionally enter the **Client** name (auto-creates if new)
4. Enter the **Price (€)**
5. Pick the **Date**
6. Tap 

Invoice PDF:

- Swipe left on any income item → tap **Invoice**
- A PDF receipt is generated with the transaction details

6. Appointments

Manage client bookings and service schedules.

Appointments — filter by month, manage status

How to book an appointment:

1. Tap the + button
2. Enter the **Client name** (auto-completes from saved clients)
3. Choose a **Service** from the list
4. Pick **Date** and **Time**
5. (Optional) Assign a **Worker**
6. (Optional) Add **Extra services** — tap **Add** to include more rows
7. Tap **Save**

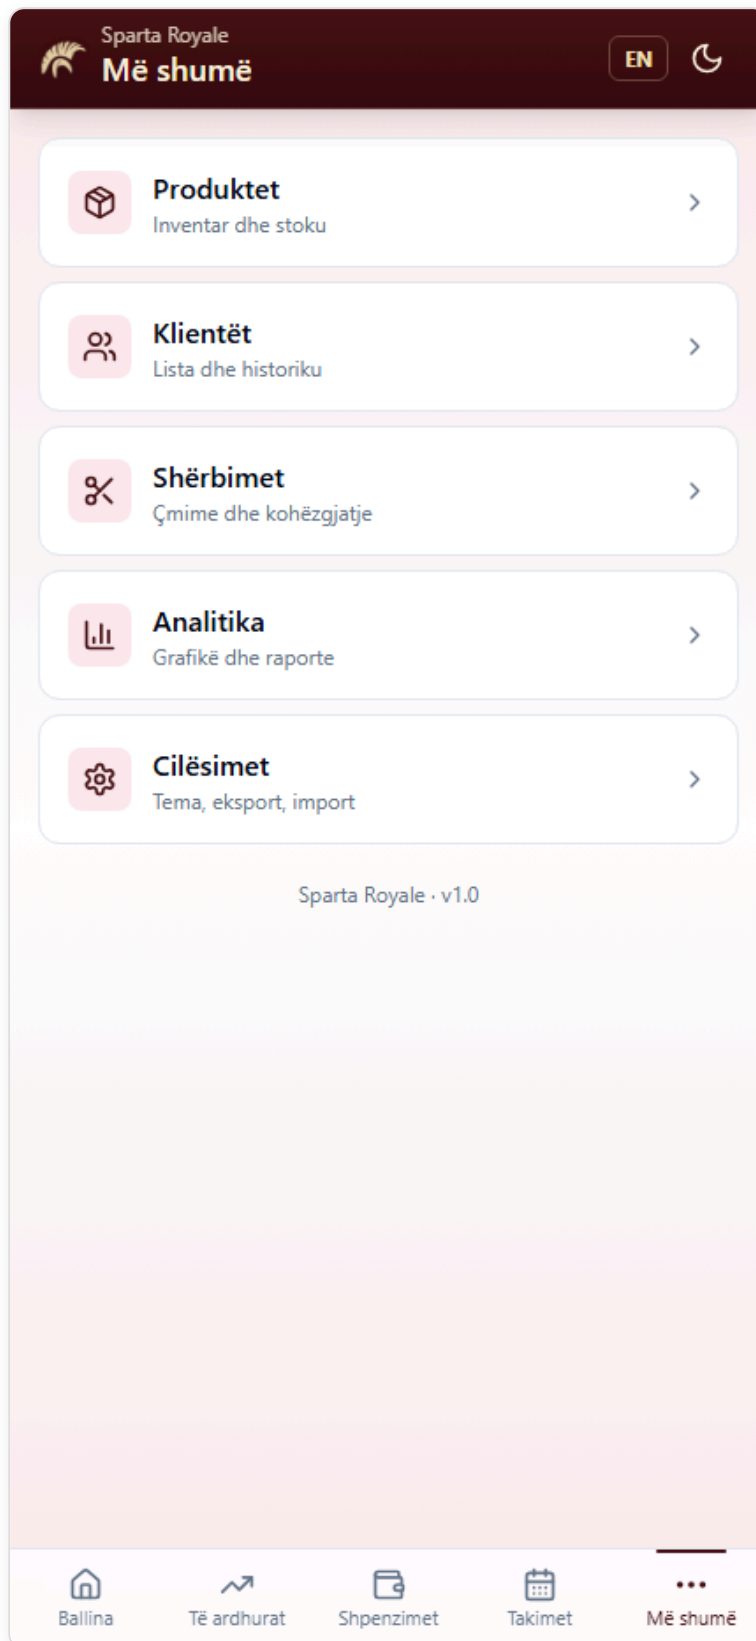

Statuses:

- **Pending** — tap  to complete,  to cancel
- **Completed** — green badge; can be reopened if needed
- **Canceled** — gray badge, text is crossed out

Tap any appointment row to expand and see full details, extras, and total price.

7. More Menu

The **More** menu is your gateway to management tools.

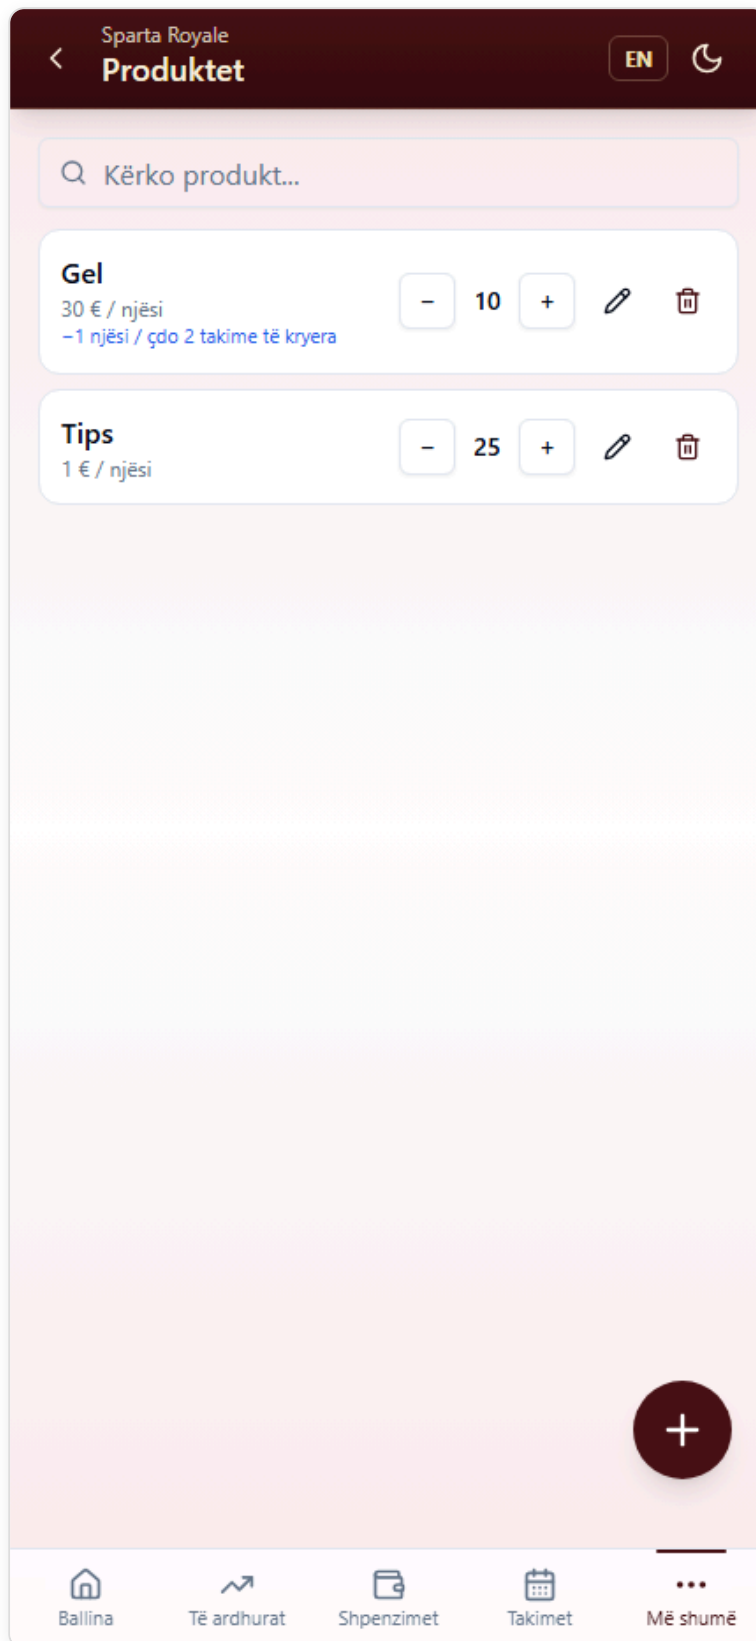

More menu — 5 management sections

Section	What you can do
Products	Manage inventory, stock levels, low-stock alerts
Clients	View client list, history, totals spent
Services	Manage service menu, prices, durations
Analytics	Charts, graphs, detailed PDF reports
Settings	Workers, notifications, language, email reports

8. Products

Track product inventory. Each product shows name, quantity, price, and auto-deduction settings.

Products — stock levels with +/- adjusters

How to add a product:

1. Tap the + button
2. Enter **Name** and **Price per unit**
3. Set the **Quantity** in stock
4. Optionally set **Auto-deduction**:
"Deduct 1 unit every X completed appointments"
5. Tap 

Stock adjustments:

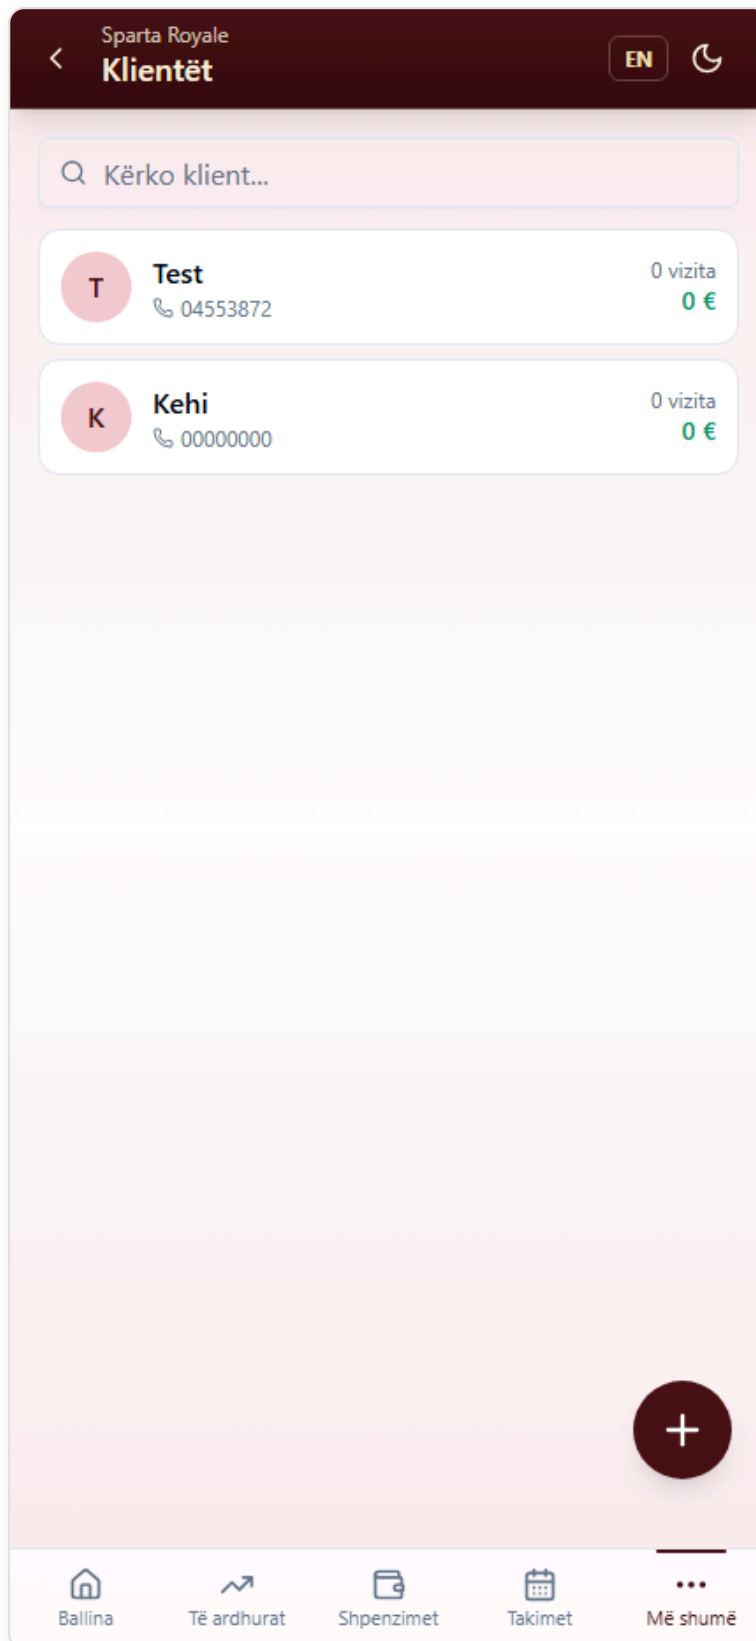

- Tap + to increase stock (auto-creates a "Supply" expense)
- Tap – to decrease
- **Auto-merge**: adding stock for the same product on the same day merges expenses

Low stock:

- Products below the limit get an orange border + warning icon
- Alerts appear on Dashboard and as browser notifications

9. Clients

View and manage your client base.

Clients list — search, sort by visits and spending

How to add a client:

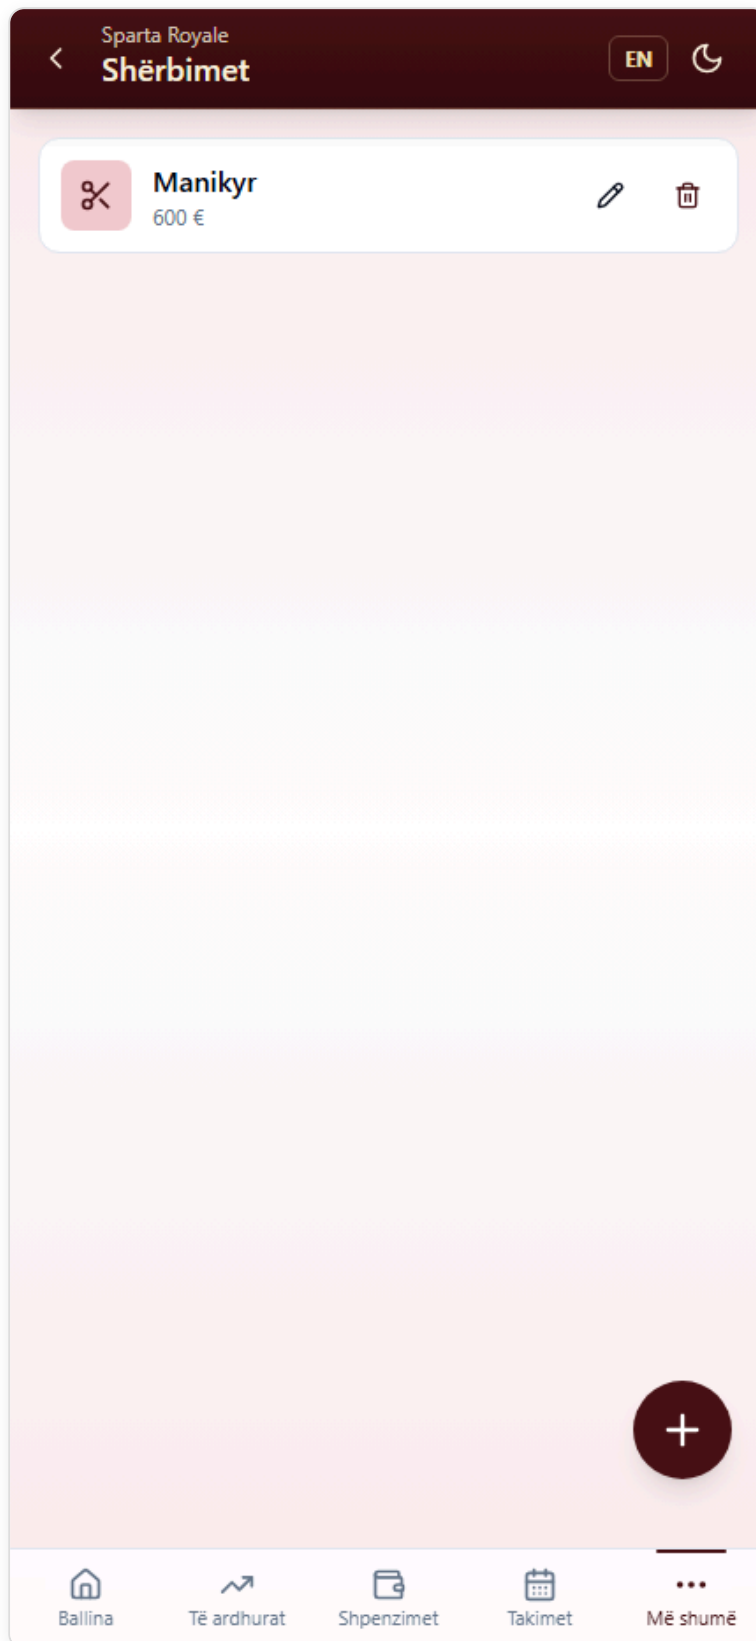

1. Tap the + button
2. Enter **Name** and optionally **Phone**
3. Tap 

Client details:

- Tap any client to see total spent, visit count, and full history
- Use the search bar to quickly find clients

10. Services

Configure your service menu with prices and durations.

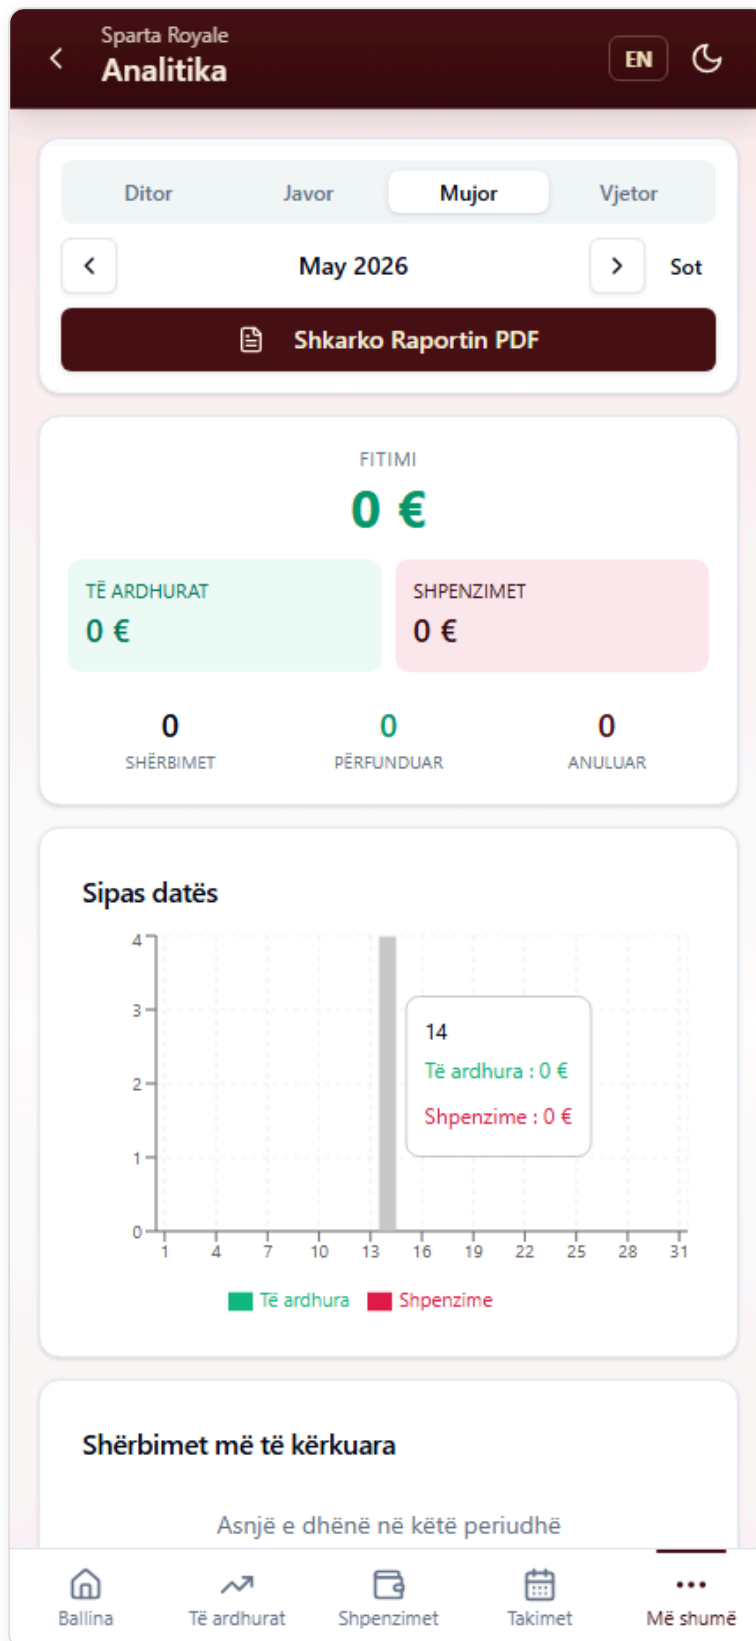

Services — price list with durations

How to add a service:

1. Tap the + button
2. Enter **Name** (e.g., "Classic Manicure")
3. Set **Price (€)**
4. Optionally set **Duration (minutes)**
5. Tap 

11. Analytics

Visual reports and business insights.

Analytics — charts, top services, best clients

Period:

- Choose: **Daily / Weekly / Monthly / Yearly**
- Navigate with arrows or tap "**Today**"

What you see:

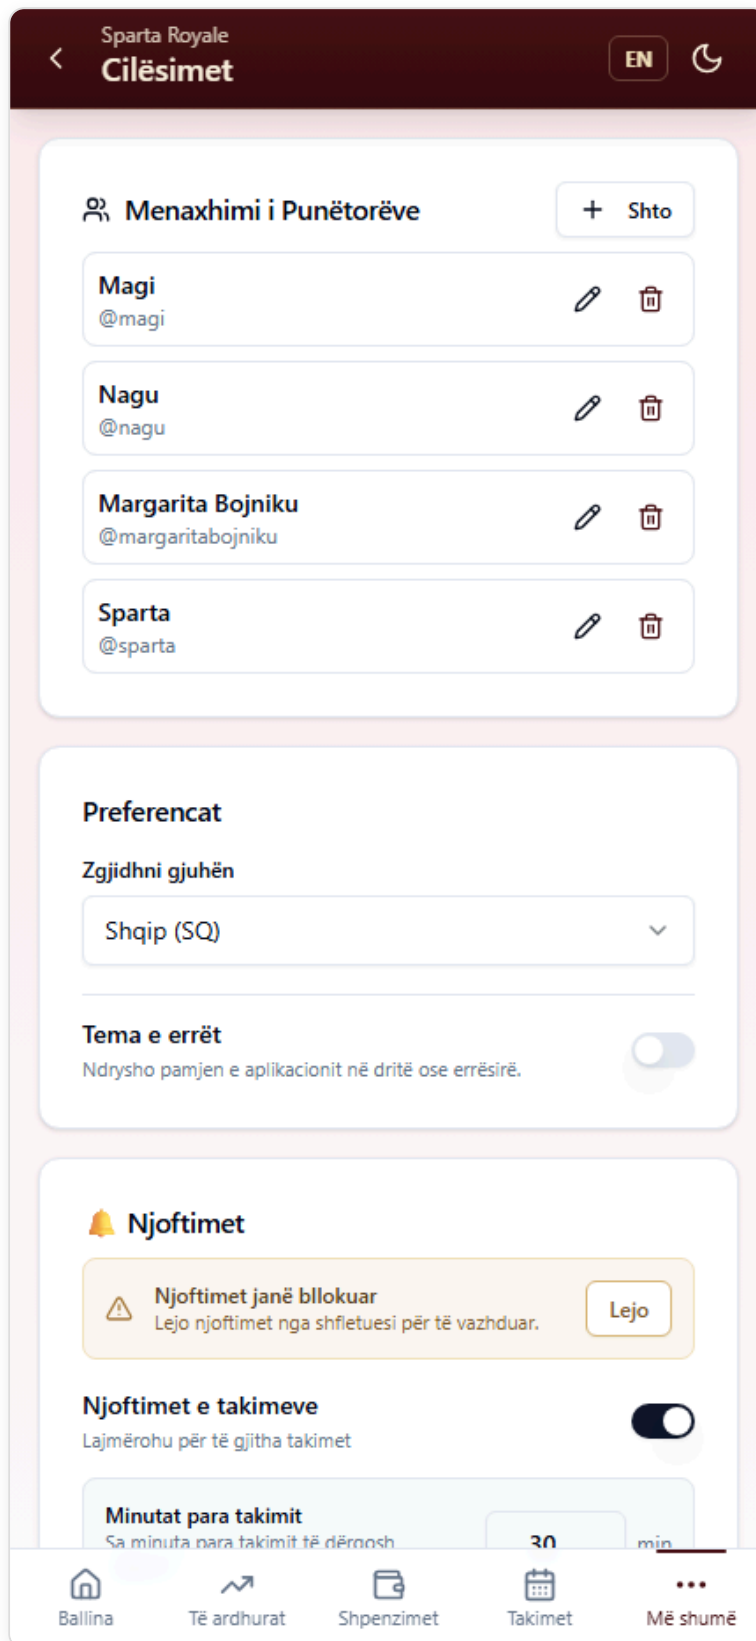

- **Bar chart** — income vs expenses
- **Pie chart** — most requested services
- **Top clients** — ranked by revenue
- **Best day** — highest-grossing day

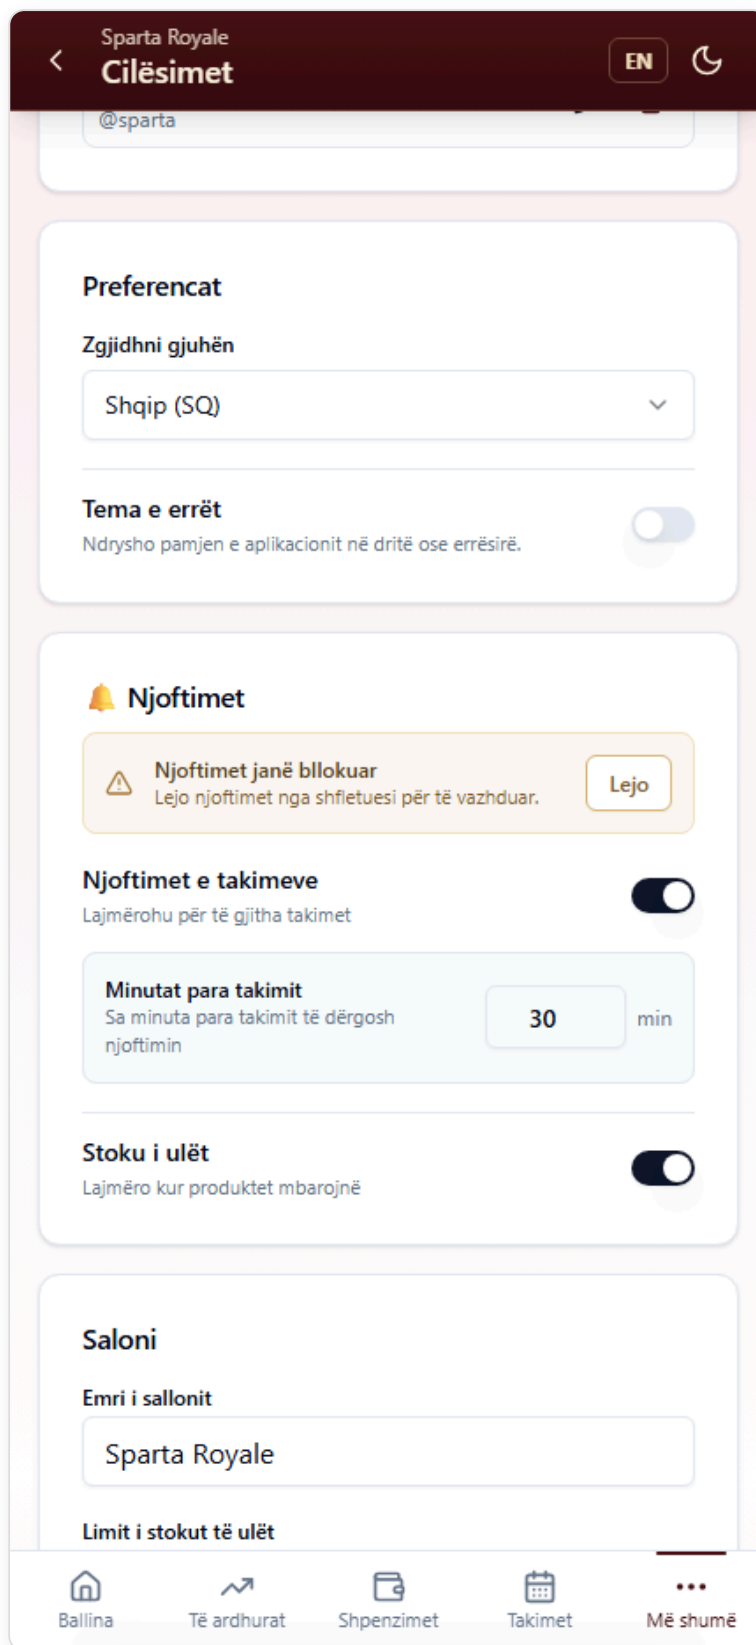

Download PDF Report:

Tap  to export a detailed financial report.

12. Settings

All settings in one place. Scroll through three sections.

Settings middle — Salon info, Email config

Settings bottom — EmailUS schedule, Account

Worker Management (Owner only)

- Approve pending worker accounts
- Edit worker info, role, or password
- Delete workers

Preferences

- **Language:** Switch between Shqip / English
- **Dark Mode:** Toggle light/dark theme

Notifications

- Enable/disable **Appointment Alerts** (set minutes before)
- Enable/disable **Low Stock Alerts**
- Tap **Send Test Notification** to test

Salon Settings

- **Salon Name** — shown on dashboard & reports
- **Low Stock Limit** — threshold for alerts

Email Report (EmailJS)

- Configure Service ID, Template ID, Public Key
- Set schedule: Daily / Weekly / Monthly / Yearly
- Set time, day of week/month
- Test with **Send Report Now**

Account

- Edit profile name
- Logout

13. Notifications & PWA

12.1 Browser Notifications

The app sends notifications for:

- **Appointments:** X minutes before the scheduled time
- **Low Stock:** When products fall below the threshold

How to enable:

1. Go to **Settings** → **Notifications**
2. If prompted by the browser, tap **"Allow"**
3. Toggle on **Appointment Notifications** and **Low Stock Notifications**
4. Set the minutes-before for appointment alerts

💡 **Tip:** If notifications are blocked, check your browser settings and unblock the site.

12.2 Testing Notifications

- Tap **Send Test Notification (Browser)** to test locally
- Tap **Send Test Notification (Server)** for server push

12.3 PWA Installation

1. **iPhone (Safari):** Share → Add to Home Screen → Add
2. **Android (Chrome):** Menu → Install App → Install
3. **Desktop (Chrome):** Install icon in address bar

Once installed, the app opens full-screen with no browser chrome — just like a native app.
