1. Introduction

Sparta Royale is a web-based salon management application. You can install it on your phone or computer as a PWA (Progressive Web App).

Key Features:

- Appointment management
- Income and expense tracking
- Product inventory with stock alerts
- Client and service management
- Analytics and PDF reports
- Automatic email reports (EmailJS)
- Browser notifications for appointments and low stock
- Worker accounts with owner approval

2. Getting Started

2.1 First-time Setup

When you open the app for the first time, you will see the **Configure Administrator** screen:

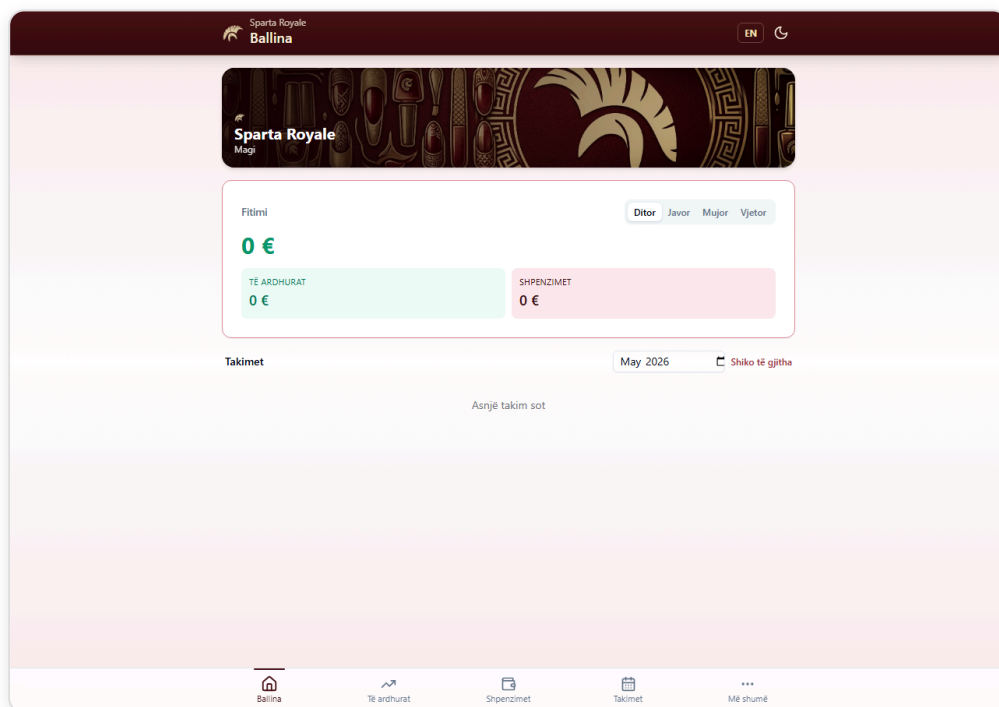

1. Enter your **Full Name** (e.g. "Valmir Maloku")
2. Enter and confirm your **Password**
3. Click **"Create & Login"**

This creates the first account with **Owner** role.

2.2 Login

If an admin account already exists:

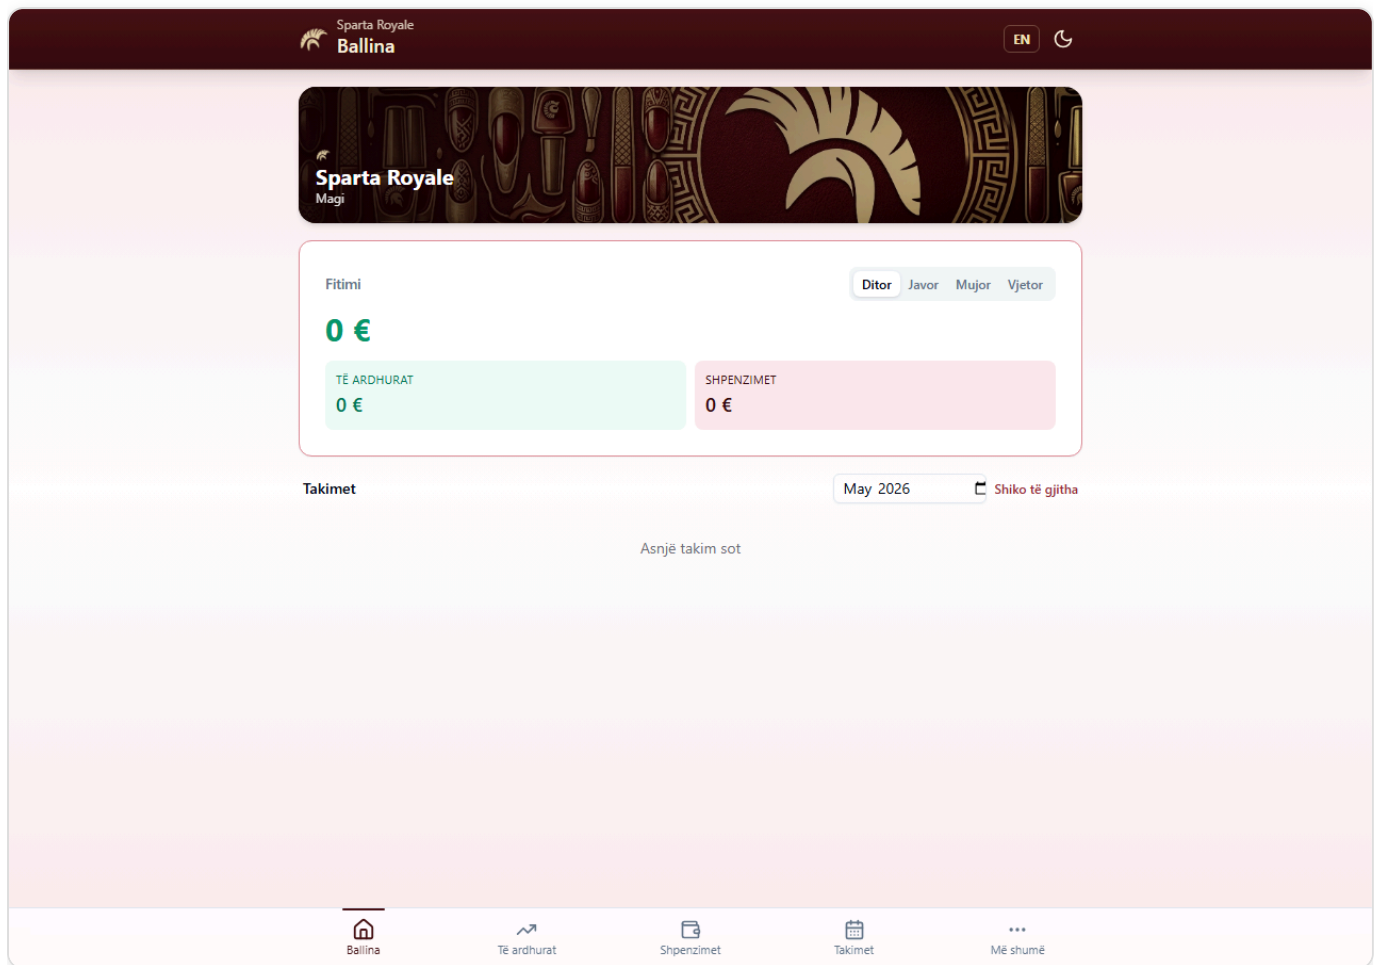

1. Enter your password
2. Click **"Login"**

Login screen (after entering password "magi" and clicking Login)

2.3 Main Dashboard

After logging in, the Dashboard is the first screen you see.

Dashboard — shows profit, appointments, and low stock alerts

2.4 Bottom Navigation

The app uses a bottom tab bar for navigation:

Tab	Description
Dashboard	Profit overview, today's appointments, low stock alerts
Expenses	View and manage business expenses
Income	View and manage service income
Appointments	Manage client appointments
More	Products, Clients, Services, Analytics, Settings

3. Dashboard

The Dashboard provides a quick overview of your business.

3.1 Profit Card

- Select the period: **Daily / Weekly / Monthly / Yearly**
- Shows **Income** (green), **Expenses** (red), and **Profit** for the selected period

3.2 Today's Appointments

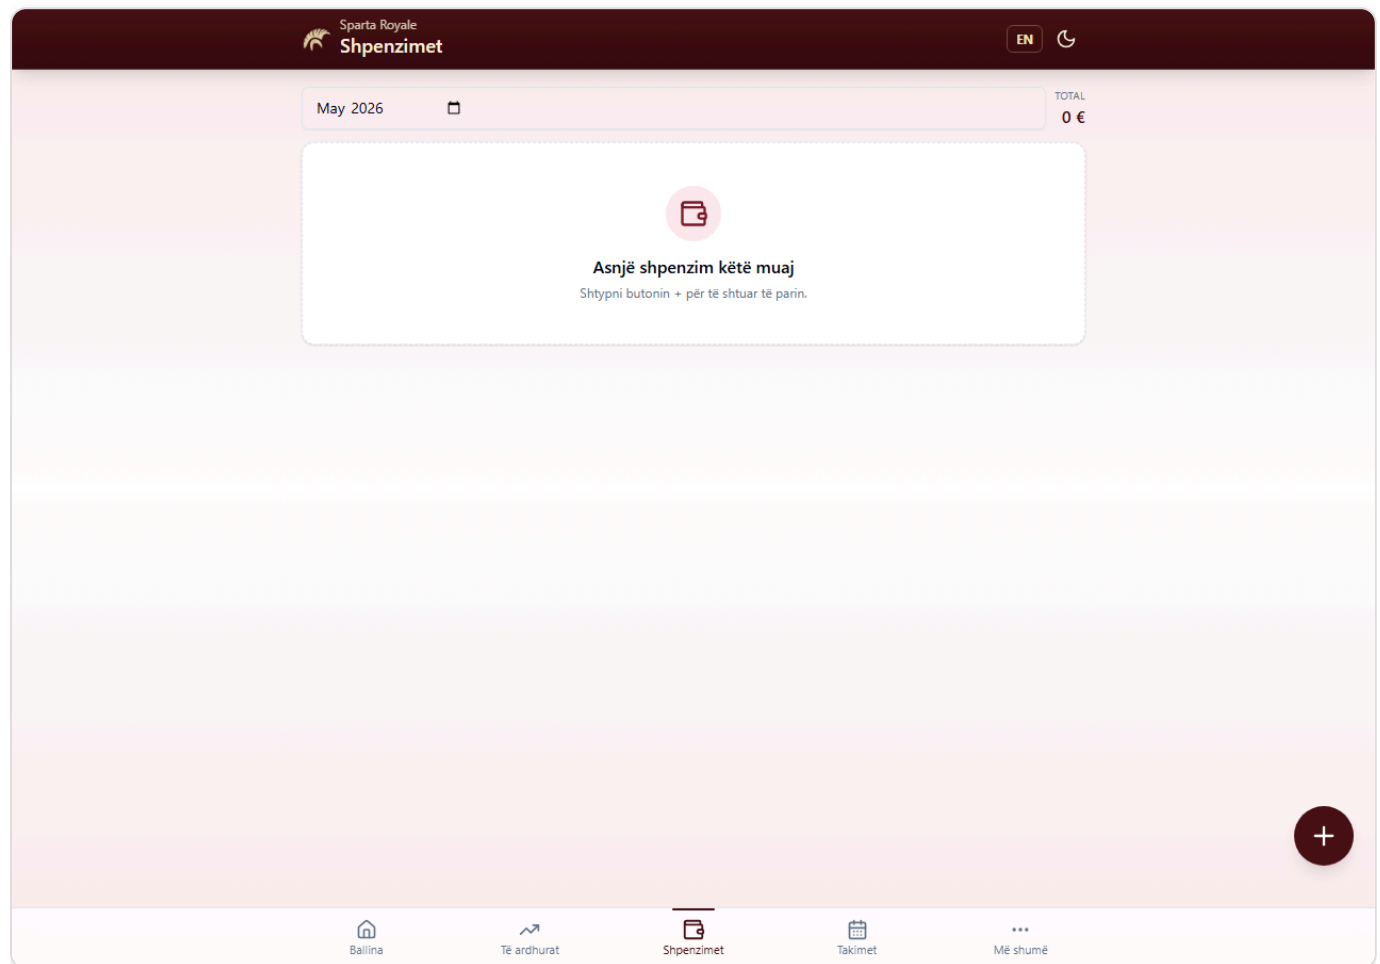

- View appointments for a selected month
- Click "**View All**" to go to the Appointments tab
- Click an appointment to expand details

3.3 Low Stock Alert

- Shows products below the low stock threshold
- Click "**View All**" to go to Products

4. Expenses

Manage all business expenses.

Expenses list view

4.1 Adding an Expense

1. Tap the + button (bottom right)
2. Fill in:
 - **Name** (required) — e.g. "Rent", "Electricity"
 - **Description** (optional)
 - **Amount (€)** (required)
 - **Date** (required)
3. Press "**Save**"

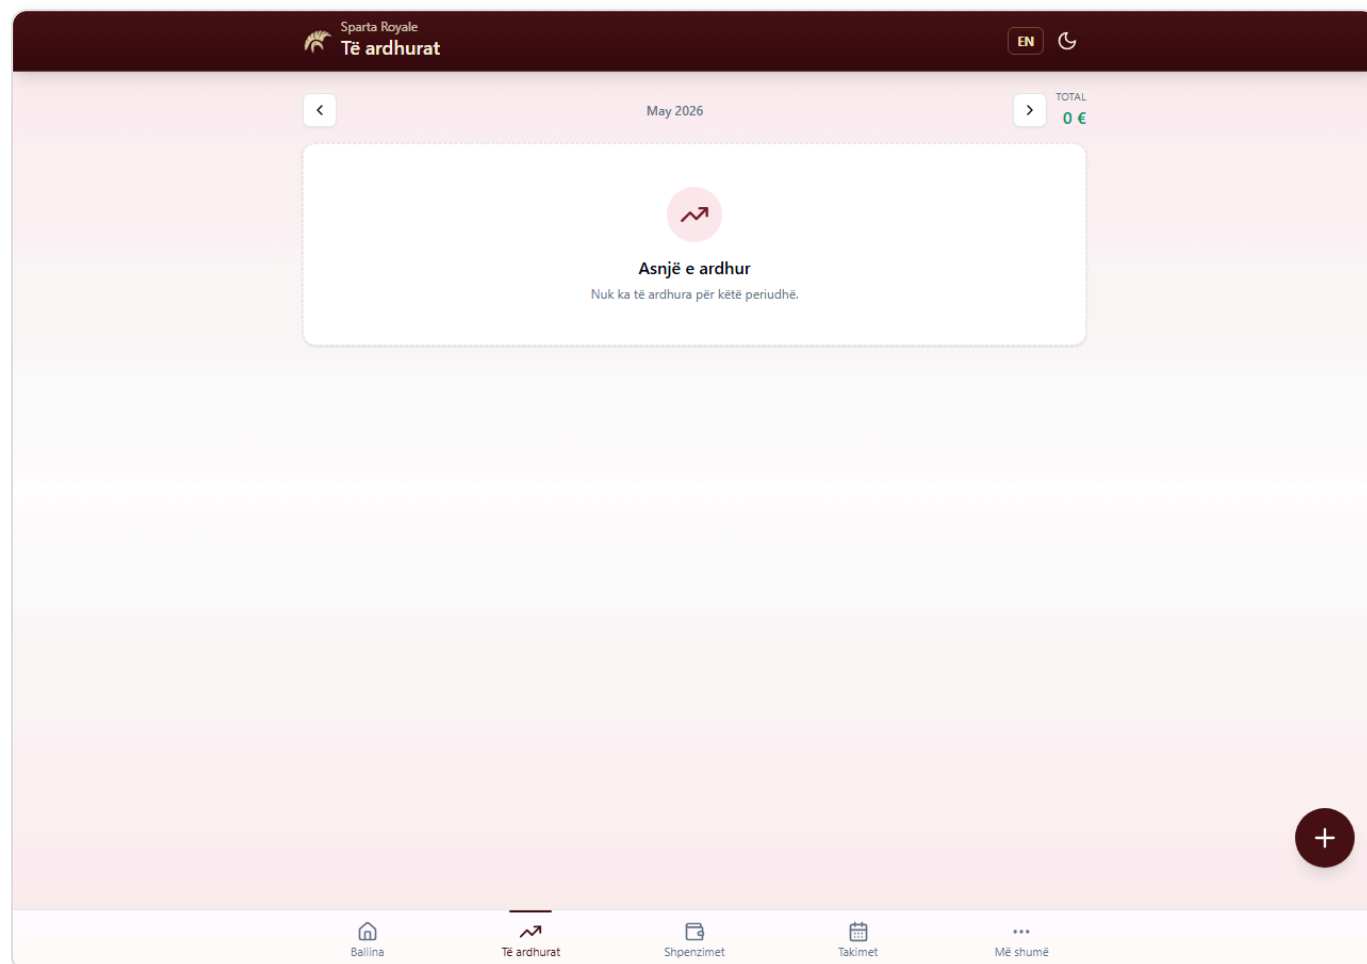

Tip: If you add an expense with the same **name** and **date** as an existing one, the amounts will be merged together instead of creating a duplicate.

4.2 Editing / Deleting

- **Swipe left** on an expense to reveal Edit (pencil) and Delete (trash) buttons
- Delete requires confirmation

5. Income

Track income from services.

Income list view

5.1 Adding Income

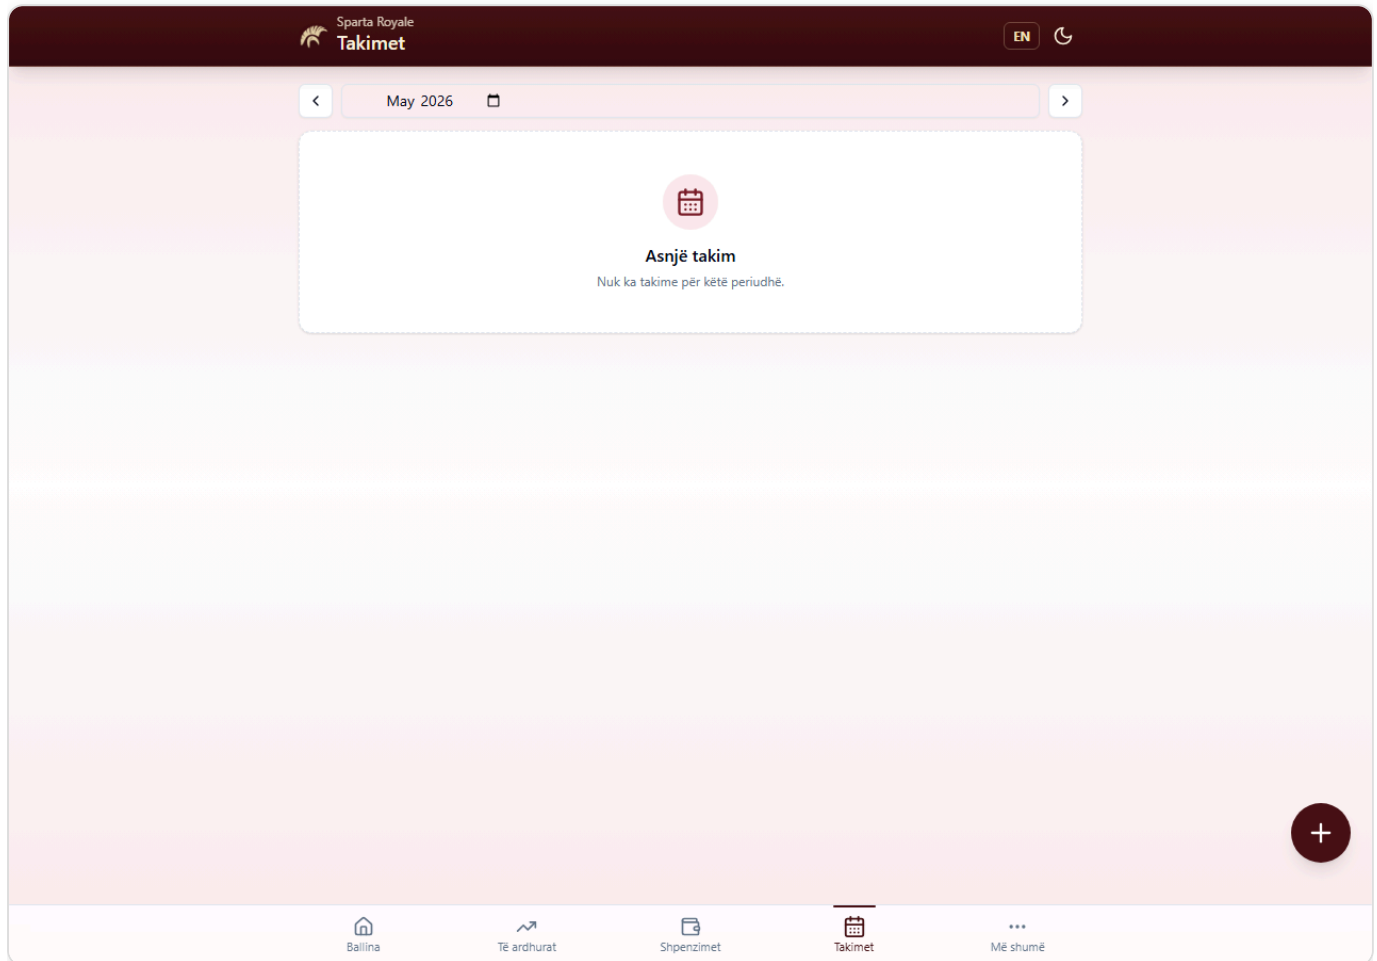

1. Tap the **+** button (bottom right)
2. Fill in:
 - **Service** — select from the list or type manually
 - **Client** (optional) — type a name; new clients are auto-created
 - **Price (€)** (required)
 - **Date** (required)
3. Press **"Save"**

5.2 Invoice PDF

- Swipe left on an income item → tap **"Invoice"**
- Generates a PDF with the transaction details

6. Appointments

Manage client appointments.

Appointments list view

6.1 Adding an Appointment

1. Tap the **+** button (bottom right)
2. Fill in:
 - **Name** — auto-completes from existing clients
 - **Phone** (optional)
 - **Service** — select from list or type manually
 - **Date and Time**
 - **Worker** (optional, owner only)
 - **Extra Services** (optional) — add rows with name + price
3. Press "**Save**"

Note: A time conflict warning appears if the time overlaps with another appointment.

6.2 Statuses

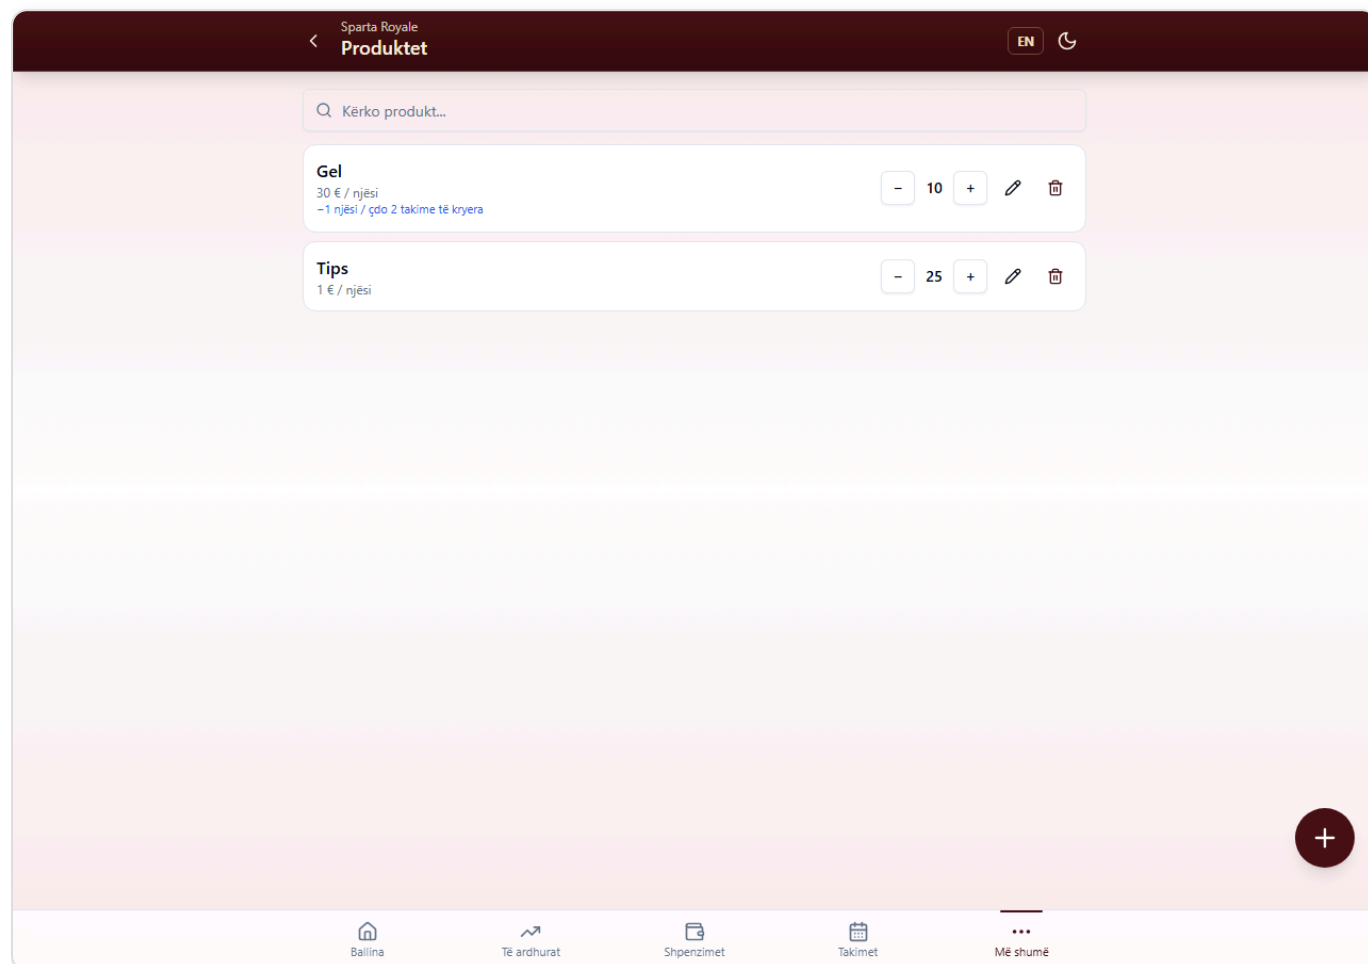

Status	Actions
Pending	 Complete /  Cancel
Completed	Green badge — can be reopened
Canceled	Gray badge — strikethrough text

6.3 Details

Click an appointment to expand and see service details, extras, total price, and action buttons (Reopen, Edit, Delete).

7. Products

Manage inventory and stock.

Products list view

7.1 Adding a Product

1. Go to **More → Products**
2. Tap the **+** button
3. Fill in:
 - **Name** (required)
 - **Quantity** — starting stock
 - **Price per unit (€)** (required)
 - **Auto-deduction** — deduct 1 unit every X completed appointments (0 = manual only)
4. Press **"Save"**

7.2 Stock Adjustments

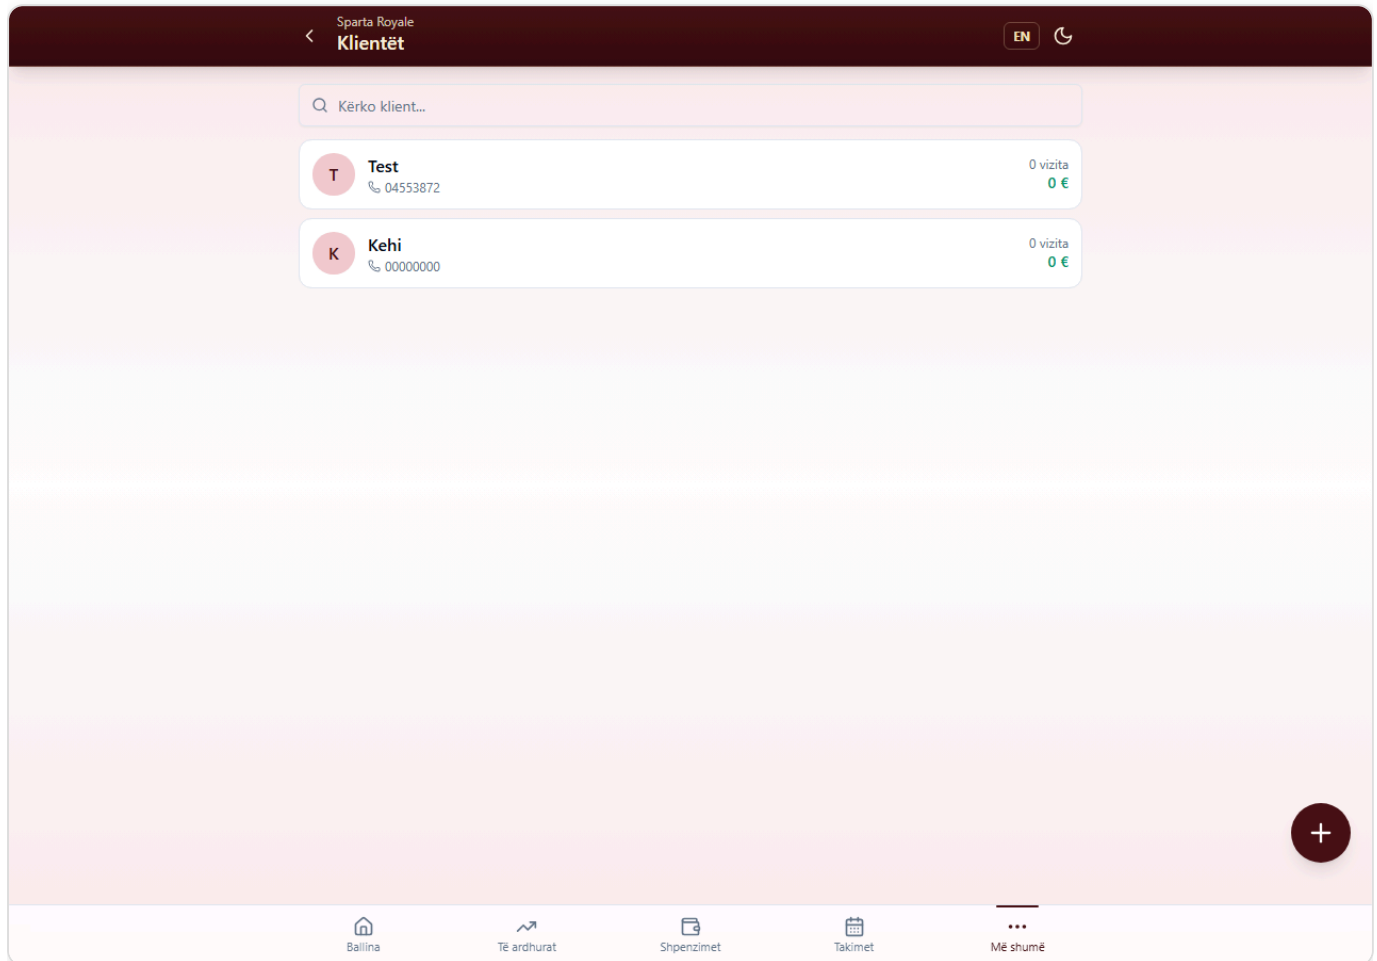

- Press + or – next to the quantity to increase or decrease stock
- When stock increases, a **"Supply"** expense is automatically created
- **Auto-merge:** If you add stock for the same product on the same day, expenses are merged into one entry (amounts and quantities are summed)

7.3 Low Stock Alerts

- Products below the low stock threshold show an orange border and warning icon
- Alerts appear on the Dashboard and as browser notifications

8. Clients

Client list with history.

Clients list view

8.1 Adding a Client

1. Go to **More** → **Clients**
2. Tap the **+** button
3. Enter **Name** and optionally **Phone**
4. Press **"Save"**

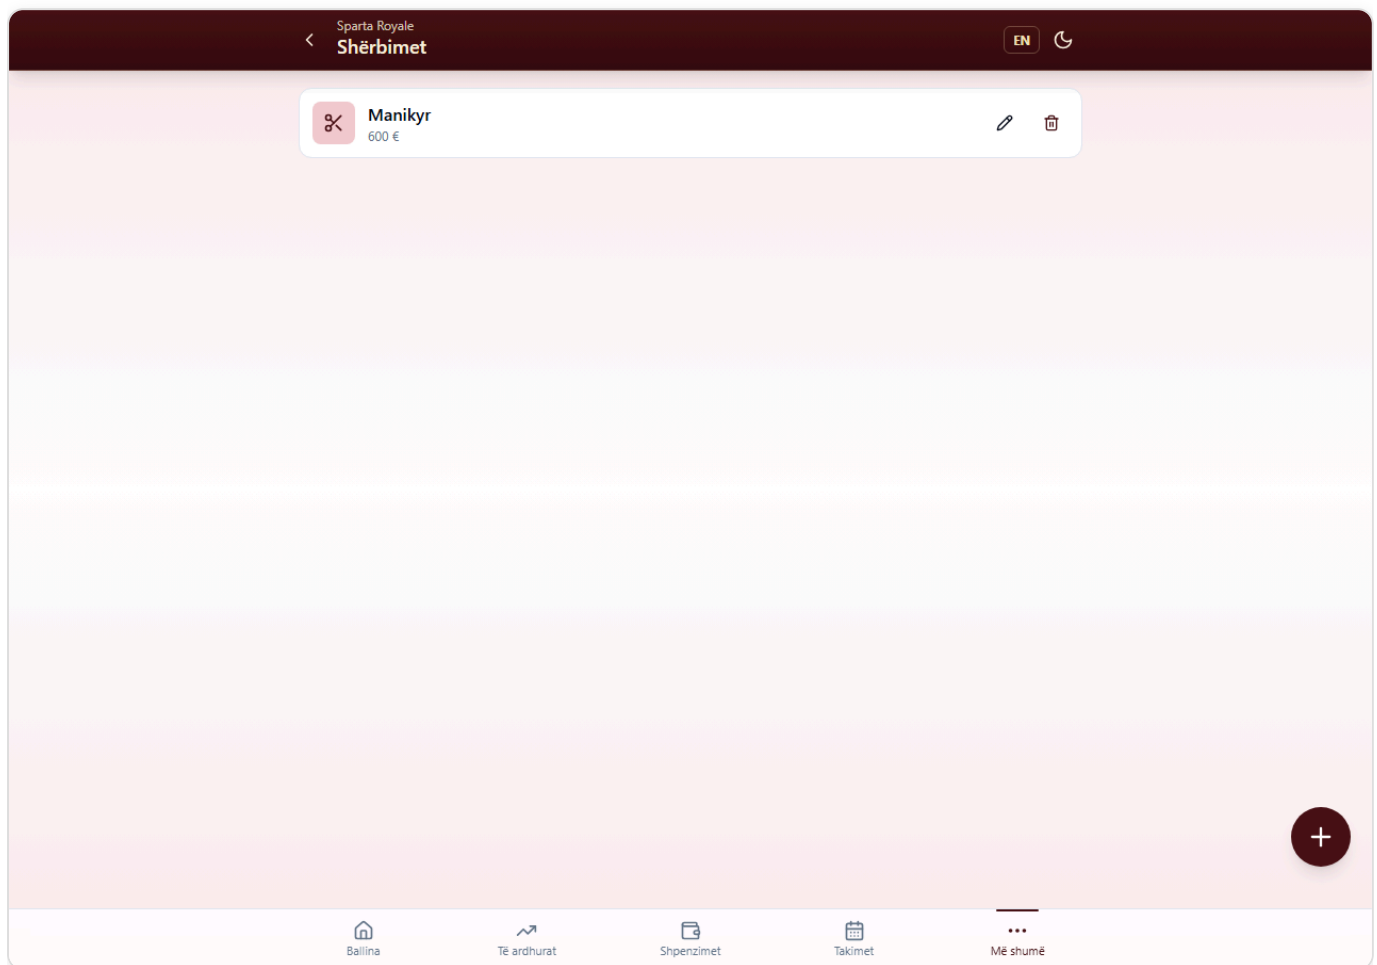

8.2 Client Details

Tap a client to see total spent, visit count, and income history.

8.3 Search

Use the search bar to quickly find clients by name.

9. Services

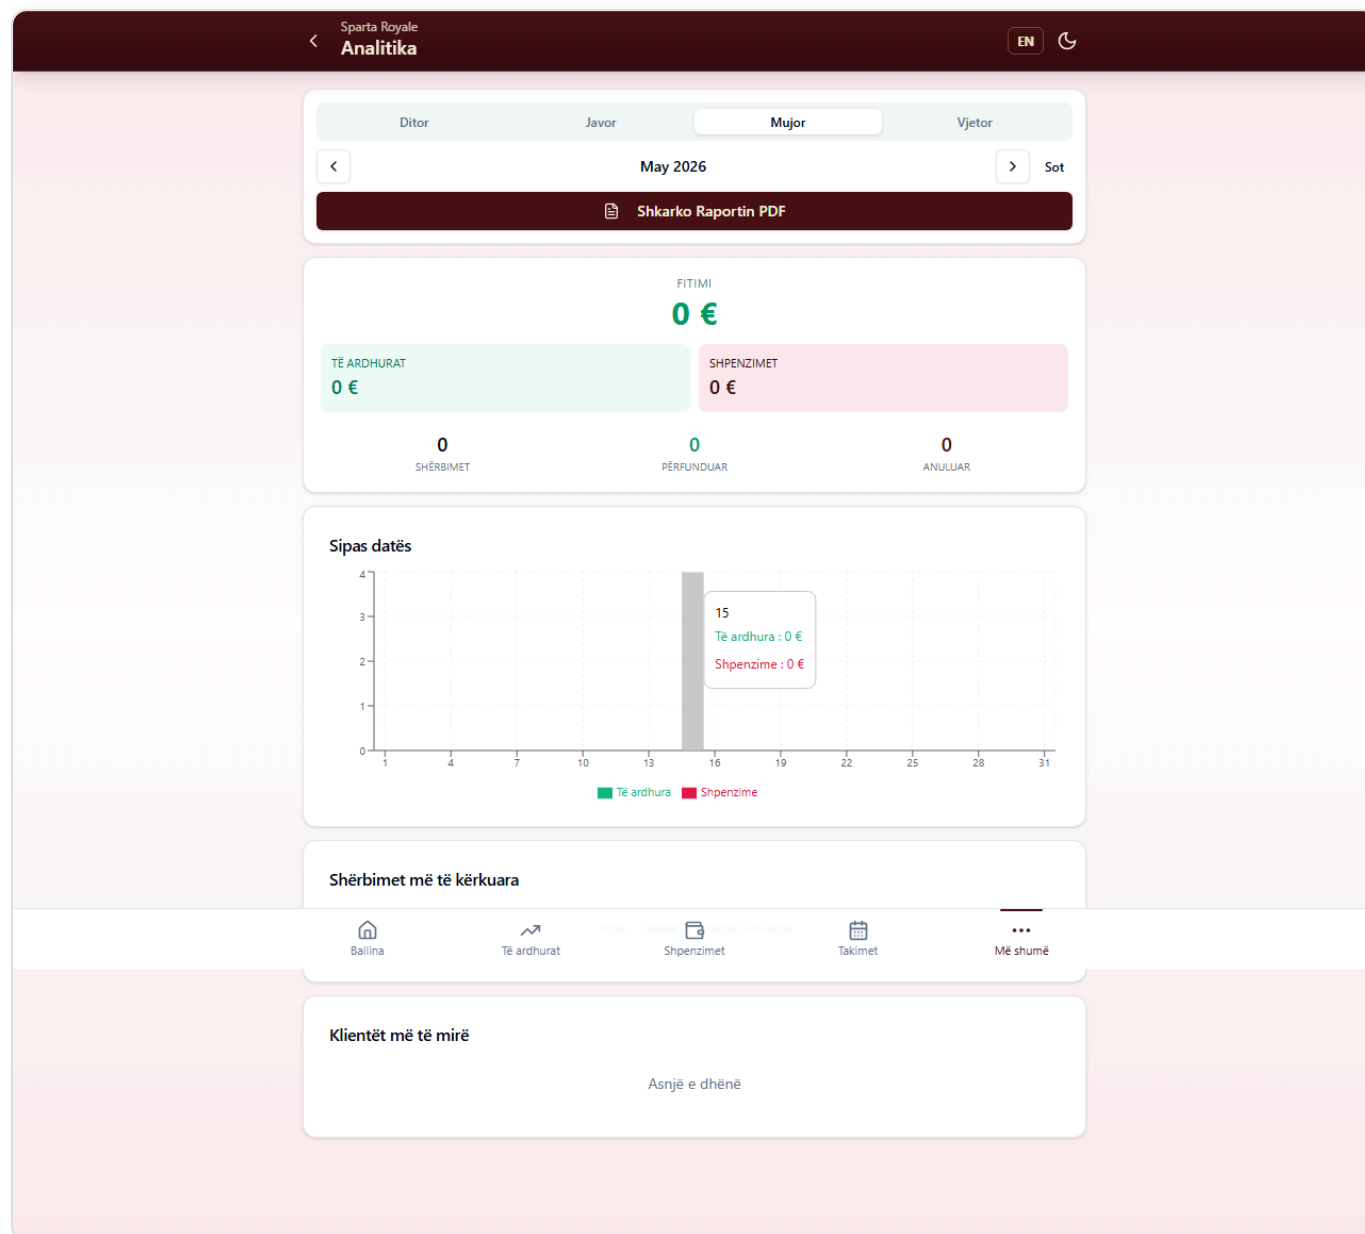

Services list view

9.1 Adding a Service

1. Go to **More** → **Services**
2. Tap the **+** button
3. Fill in:
 - **Name** (required) — e.g. "Classic Manicure"
 - **Price (€)** (required)
 - **Duration (minutes)** (optional)
4. Press **"Save"**

10. Analytics

Charts and statistics for your business.

Analytics view

10.1 Period Selection

- Select: **Daily / Weekly / Monthly / Yearly**
- Use arrows to navigate or press **"Today"** to reset

10.2 Charts

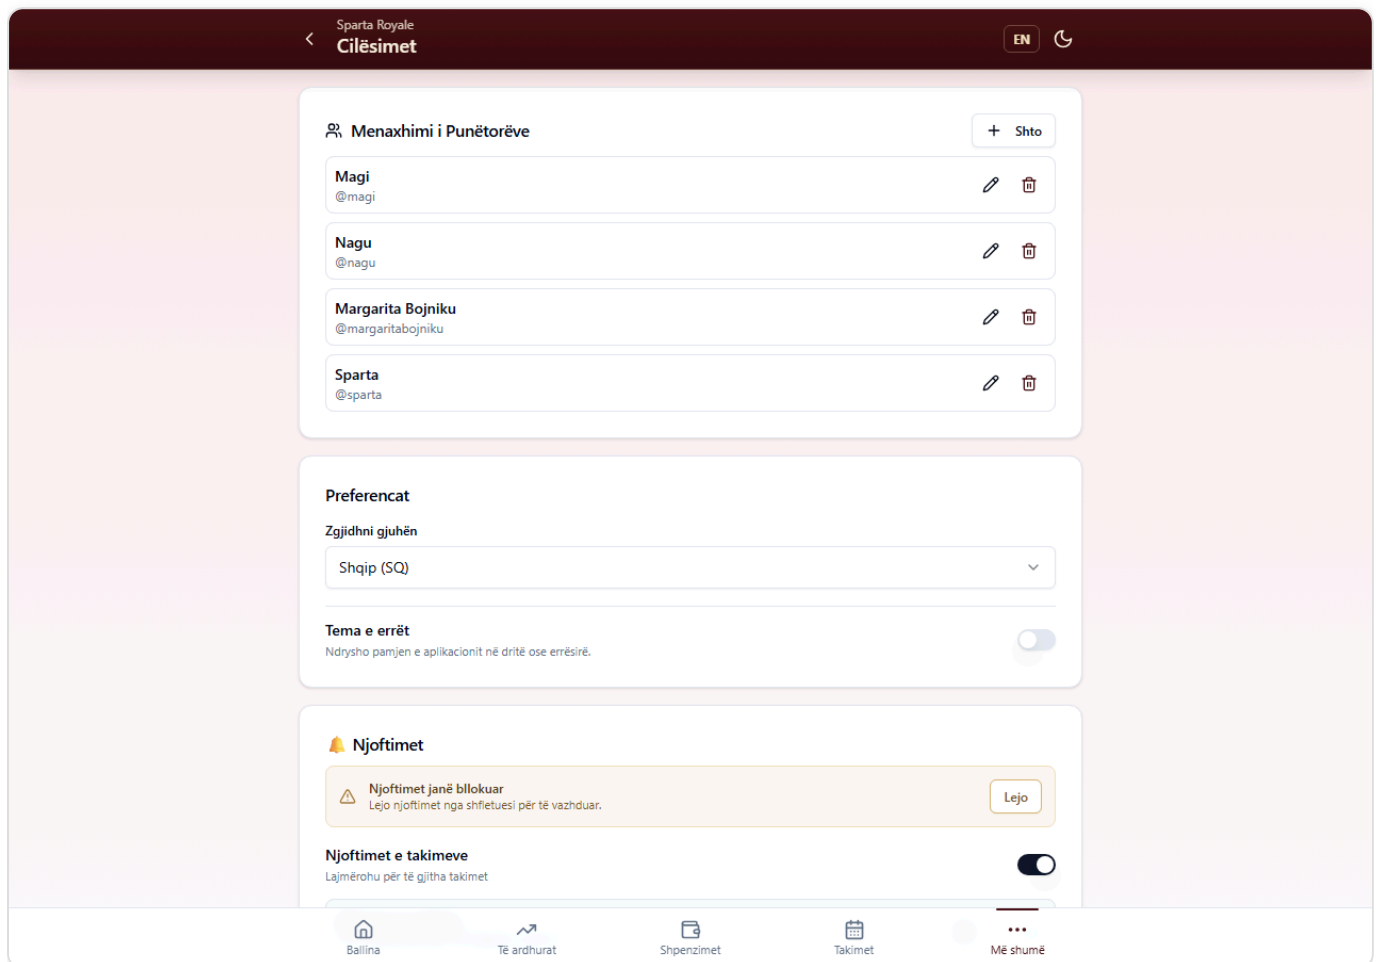

Chart	Description
Bar Chart	Compares income (green) vs expenses (rose)
Pie Chart	Most requested services
Top Clients	Ranked list with revenue
Best Day	Highest-grossing day

10.3 Download PDF Report

Press **"Download PDF Report"** to export a comprehensive PDF with income, expenses, profit, and detailed transactions.

11. Settings

Go to **More** → **Settings** to configure the app.

Settings (bottom section)

11.1 Worker Management (Owner only)

- View workers with status (active / pending)
- **Approve** — enables a worker account
- **Edit** — change name, username, role, or password
- **Delete** — remove a worker

11.2 Preferences

Option	Description
Language	Shqip / English
Dark Mode	Toggle dark/light theme

11.3 Notifications

Enable/disable browser notifications for appointments and low stock. Test with the "**Send Test Notification**" button.

11.4 Salon Settings (Owner only)

- **Salon Name** — shown on the dashboard and reports
- **Low Stock Limit** — threshold for low stock alerts
- **Save Changes** button

11.5 Account

- Edit your profile name
- Logout

12. Email Reports

Configure automatic email reports via EmailJS.

12.1 Configuration

1. Enable **Email Report** toggle
2. Fill in:
 - **Service ID** — from EmailJS
 - **Template ID** — from EmailJS
 - **Public Key** — from EmailJS
 - **Recipient Email** — where the report is sent
 - **Sender Name** — default "Sparta Royale"
3. **Schedule:**
 - Frequency: Daily / Weekly / Monthly / Yearly
 - Time, Day of Week, Day of Month, Month+Day
4. Press **"Save"**
5. Test with **"Send Report Now"**

12.2 EmailJS Template Variables

Variable	Description
{{subject}}	Email subject line
{{to_email}}	Recipient email
{{from_name}}	Sender name
{{salon_name}}	Salon name
{{report_period}}	Report period
{{total_income}}	Total income
{{total_expense}}	Total expenses
{{profit}}	Net profit
{{profit_color}}	Profit color (#16a34a or #dc2626)
{{services_count}}	Service count

{{completed_count}}	Completed count
{{canceled_count}}	Canceled count
{{top_services}}	Top services (text list)
{{top_clients}}	Top clients (text list)
{{send_date}}	Send date
{{report_html}}	Full HTML report

Note: EmailJS templates must use simple {{variable}} syntax. Do not use {{#each}} loops.

13. Notifications

13.1 Browser Notifications

The app sends notifications for:

- **Appointments:** X minutes before the scheduled time (configure in Settings)
- **Low Stock:** When products fall below the threshold

13.2 Enabling Notifications

1. Go to **Settings** → **Notifications**
2. Press "**Allow**" if the browser asks for permission
3. Enable **Appointment Notifications** and/or **Low Stock Notifications**

13.3 Web Push (Advanced)

Server-side push notifications via cron endpoint: `/api/cron/reminders`. Requires `CRON_SECRET` authorization.

14. Tips & Troubleshooting

14.1 Common Issues

Issue	Solution
Notifications don't work	Allow notifications in browser settings
Email not sending	Verify EmailJS config: Service ID, Template ID, Public Key
Can't save appointment	Fill in all 4 required fields (name, service, date, time)
Stock not deducting automatically	Set "Deduct 1 unit every X appointments" on the product
Don't see some data	Make sure you're logged in as Owner

14.2 Tips

Expense merging: Adding the same expense name on the same date automatically merges them — useful for repeated supplies.

Add services first: Before creating appointments, ensure your service list is populated.

Install as app: Use "Add to Home Screen" (mobile) or the install icon (desktop) for a native-like experience.

Export regularly: Use the PDF download button in Analytics to save reports for your records.

14.3 PWA Installation

- **Chrome:** Click the install icon in the address bar
- **Safari (iOS):** Share → Add to Home Screen
- **Edge:** "..." → Apps → Install
